

EDUCATION ASSOCIATION

Join our national campaign for the education of parents,
become a **Certified Happiest Baby Educator.**

Dr. Harvey Karp,
*Noted Pediatrician, Author, and
Child Development Expert.*

Dr. Harvey Karp, renown Pediatrician explains how calming even the fussiest infants is easy once you can see the world from their point of view. Inside the womb newborns are continually fed, shushed, jiggled and cuddled. But once they're born we leave them alone, in almost total stillness, for hours a day! No wonder so many babies have trouble adjusting during those first three months. With his approach you can teach how to calm a crying baby in minutes...even seconds!

Now, you can master this extraordinary approach and learn exactly how to teach it to new parents – step-by-step:

- The Missing "4th Trimester"
- The "Calming" Reflex
- The 5 "S's"
- The Cuddle Cure

\$225 Happiest Baby Certification Course includes:

- Lecture on CD Rom
